### ORGANIZERS ARE TO BE SENT EAST

Notwithstanding the Failure of the Strike on Eastern Lines the Pullman Boycotters Still Continue to Harrass the Travelling Public on The Output for July Fixed at Three and Western Roads-The Rock Island to Be Made a Special Target for Their Operations-Situation at Various Other Points.

DRESIDENT DEBS and his associunion played a high card today U and made a radical move when they formally boycotted every road represented in the General Managers' association. The roads represented in the association and subjected to the boycott are; Chicago, Rock Island and Pacific, Illinois Con-tral, Chicago and Grand Trunk, Santo Fe, Chicago and Alton, Chicago and Erie, Chicago and Eastern Illinois, Chicago and Northeastern, Western Indiana, Chicago, Burlington and Quiner, Chicago, Milwanken and St. Paul, Chicago, Great Western, Louisville, New Albany and Chicago, Chi-cago and Northern Pacific, Lake Shore, Michigan Central, New York, Chicago Fort Wayne and Chicago, Wabash, Wisconsin Central and Baltimore and

A mob of 1,000 people, composed of rest of the train but at 11 o'clock no such move has been made. The sheriff was on hand with twenty deputies, but he was powerless to pratect the train. Tonight he wired Governor Matthews for troops to prevent interference with the operation of the road. No reply has yet been received. The whole town is in sympathy with the strikers

The American Railway union has given out the following bulletin to the press: In reply to a telegram from General Manager Scale, of the Mobile and Ohio, stating that that road had cut off all Pullmans and asking for an order releasing the tie-up, President Dabs this noon wired the Mobile and Ohio, asking whether it was a member of the General Managers' association. If not, an order will besent the men this afternoon to re-

and denounce the sheriff's action.

President Debs states that twenty five organizers have been sent east to organize eastern roads and that every road represented in the general manager's association, whether pulling Pullmans or Wagners, will be boycotted and tied up. An official notice to this effect will be issued.

All Alton yardmen who did not join the strike last night went out at 12 o'clock today. Tonight all important division points and terminals of the Alton will be tied up.

Positive orders were issued at noon today to the committee in charge of the Rock Island men to tie up that road tonight at any cost. Telegrams have been sent out along the line instructing the union men to quit work and asking assistance from all employes. On account of General Manager St. John's position as president of the Manager's association, a bitter fight will be made against the Rock Island and almost any sacrifice will be made in order to keep that line blocked to

THE PENNSYLVANIA SUCCESSFUL Superintendent Law, of the Fennsyl-

vania lines, said at noon that by the sid of the yardmaster and the division officers with the recruits from abroad. they had succeeded in bringing in and getting out all their trains in good shape. Assurances have been received from engineers and firemen that they would stand by the company and take no part in the trouble.

It was reported at the Union depot this morning that President Debs had issued orders that would effectually tie up the Alton, but at 11 o'clock the St Louis fiver on that road went out on time and the 2 o'clock through train was made up in the depot shortly after noon and departed on time, The Milwankee road sent out its fast northwestern train at 11.30. Beyond a triffing delay to their trains, the Rock Island and Burlington roads have not

been affected. A large number of lengineers and firemen of Chicago and Eastern Ithnois railroad quit work this morning and as a result the suburban service of that line is practically abandoned. The belt line is hoperessly tied up and every line making a connection over it with the Western Indiana tracks is se-

riously affected. SITUATION ALONG THE LINE.

#### FINANCIAL SITUATION.

Outlook Still Gloomy as Viewed by R. G. Dun & Co., Though Failures Are Not Numerous.

NEW YORK, June 29 -R. G. Dan & Co's, weekly review of trade will say

tomorrow: The great strike of coal miners has ended at most points, but another threatens to interrupt business more seriously for a time, though the num-ber of hands engaged is comparatively small. Travel and traffic are well nigh arrested on about twenty western roads already, and strikes are threatened on all roads which use Pullman cars. As and St. Louis, Pau Handle, Pittsburg, the public and the railroads leasing the cars have no power to say what wages shall be paid at the Pullman shops, and the receipts of that company from the railroads do not destrikers and their sympathizars, stopped the New York and Chicago limited on the Chicago and Erle road near the cultar a strike may last, or how far it state line at Hammond, Ind., at 5.40 may extend. > mearer. The resumption of work in mines and mills has made good progress, but the demand for products is as yet smaller and less urgent than was expected. Buyers apparently wait for wer prices of iron and steel products, which manufacturers are slow to give, in view of the increased cost of materi als and preduction. After the suspension of half the working force for more than a month, it was expected that ome finished forms are a little weaker. Textile manufacturers are much em-

barrassed by the near approach of probable change in the tariff, the efeet of which cannot yet be calculated. No correct statement of failures for June or the half year is yet possible, but our returns show gratifying improvement over last year. This week the failures have been 214 in the United States against 307 last year and 35 in Canada against 27 last year. Of late the unmber and importance of failures have increased a little, as is usual at the close of the half year.

Only About \$100,000,000 Left in the Treasury.

Washington, June 29 - The statement is made today from an authoritative source that no issue of bonds will be made by the administration during the summer, that the president and Secretary Carlisle are in thorough accord on the financial policy of the treasury and that an end to gold exports to Europe is believed to be about

reached. The administration expects the new tariff bill will go into effect about August 1, and after that date increased revenues are looked for.

CONTESTED CASE IN HOUSE,

Unexpectedly today, a contested election case was precipitated upon the attention of the house and Thomas Watson, of Georgia, the well known Populistic member of the Fifty-second congress, was declared not to have been lected to the Fifty-third congress from the Tenth district of that state, and J. C. Black was confirmed in his title to the seat. The case was called up by Pence (Populist), who stated that he did so for the purpose of sking unanimous consent that when the case was considered Mr. Weston might be heard for an hour in his own behalf. He then moved that the case be postponed until Monday afternoon at 2 o'clock. At first the Democrats were inclined to vote against consideration of the case at all today, but acting under the advice of Speaker Crisp tuey united with the Republicans and voted to proceed with its consideration.

After all of the parliamentary expedients for delay permissable under the rules had been exhausted, Mr. Black was declared elected.
